

THERMAL™ RADAR

VISIONARY THERMAL DETECTION
360° COVERAGE

ESTABLISH A PERIMETER ANYWHERE

- ▶ 360° DAY/NIGHT THREAT DETECTION
- ▶ FLEXIBLE ALERT PLATFORM
- ▶ CONTINUOUS COST-EFFECTIVE PROTECTION
- ▶ REVOLUTIONARY “INSIDE OUT” COVERAGE

Thermal Radar™ is an award-winning and patented security solution made in Utah. Thermal Radar™ provides continuous 360° thermal intrusion detection and targeted surveillance of any physical incursion that might threaten your perimeter. With a rotating FLIR thermal sensor, Thermal Radar™ scans an approximate coverage area of 200 acres for human detection, 1,800 acres for vehicle detection, and 20,000 acres for fire detection - and does so every 2 seconds.
